

## BULLTIP SEAL Data Sheet

**Bulltip Seal** is a fixed length seal manufactured from two dissimilar materials. The acetyl insert is durable and will withstand freezing and boiling conditions, whilst the polypropylene body is flexible for easy use. The design includes rolled heat staking technology to secure the insert to the body, which provides clear evidence of tampering if forced open or cut and a break off point for easy removal. Whilst having the same technical characteristics as the Bulldog seal, this seal has an indicator at the locking end which protrudes through a hole in the underside of the locking head signifying it has been correctly locked.

### Technical Data

#### Recommended Applications

Airlines, Cargo, Trailers, Containers, Rail freight, Refineries, Warehouses, Cash bags, Postbags, Lockers.

#### Material

Body - Polypropylene  
Insert - Acetyl

#### Available Operating Length

19cm (overall 21cm)

#### Strap Width

7.5mm

#### Average Breaking Strength

20kg

#### Marking

Laser or Foil marking  
Consecutively numbered as standard  
Optional Customer name/logo  
Optional Laser Barcoding

#### Colours

Foil marked: red, blue, green, yellow, orange, black and white.  
Laser or Foil marked: pastel shades of pink, blue, green, yellow and peach, also black and white.  
Other colours may be available on request.

#### Packaging

Standard Packaging : 10 per mat and 1,000 seals/carton  
Carton Dimensions : 33cm x 25.4cm x 25.6cm  
Carton weight : 3.7kg/carton
