

DESCRIPTION:

Balloon seal is perhaps the most secure type of metal strap seal, due to the blocking system.

The seal's tail is inserted into the head/balloon part and the internal double steel spring clamps the tail in place.

After the seal has been blocked, it's impossible to reopen it without breaking it and leaving any evidence of tampering.

SIZES:

- °Width : 9,5 mm
- °Length : 215 mm

SEQUENTIAL NUMBERING AND CUSTOMISATION:

- °RELIEF PRINTED
